

We Choose All of Us

Creating a Community of Purpose

We Choose All of Us

We are a people who choose

A world where everyone is valued
where everyone is safe
where everyone can thrive.
A world where love is love and kindness is everything.
Nothing less than this.
Every day we choose love
and in this love everyone belongs to beloved
community.
Everyone.

We are whole human beings,

We believe in our collective humanity and our deep
connections to all living things - to air, water, fire, and
earth that sustain us.
We are those who no longer remain in physical form,
and those who do not yet exist in body,
the fallen trees and dried rivers, the dandelion seeds
who have yet to sprout.
We will create the world we want to see and
move forward with courageous love
and mutual responsibility.

We are all part of this story.

We choose to tell the whole story,
in all its pain, fear, and poison,
healing the wounds that constrain our dreams.
We believe when we imagine together, we can
achieve the unimaginable.
We commit to bringing forth a world rooted in
interdependence, resilience, and regeneration.
We commit to finding our way back to our ancestors,
ourselves, and each other; through kindness,
through strength, through community, and love.

We will live into this new story of Idaho

With sacred responsibility, in silence,
We look to the stars for lessons of interconnection,
And abiding spirit.
We believe in the wonder of what wholeness can look
like; the small glimmers of this place, first; and then
the soft voice, growing stronger and clearer, until this
world is fully realized.
Our choices have power.
We will be bold.
We invite you in.

We choose all of us.
